

WATER HEATER STATEMENT OF COMPLIANCE

Water Heater Bracing, Anchoring or Strapping

As required by California Health and Safety Code §19211

(Only required when there is a water heater on or in the property)

(C.A.R. Form WHS, Revised 4/05)

Property Address: 8320 E. Florence Ave, Downey CA 90240

- 1. STATE LAW: California Law requires that all new and replacement water heaters and existing residential water heaters be braced, anchored or strapped to resist falling or horizontal displacement due to earthquake motion. "Water heater" means any standard water heater with a capacity of no more than 120 gallons for which a pre-engineered strapping kit is readily available. (Health and Safety Code §19211).
2. LOCAL REQUIREMENTS: Some local ordinances impose more stringent water heater bracing, anchoring or strapping requirements than does California Law. Therefore, it is important to check with local city or county building and safety departments regarding the applicable water heater bracing, anchoring or strapping requirements for your property.
3. TRANSFEROR'S WRITTEN STATEMENT: California Health and Safety Code §19211 requires the seller of any real property containing a water heater to certify, in writing, that the seller is in compliance with California State Law.
4. EXCEPTIONS: There are no exceptions to the State Law.
5. CERTIFICATION: Seller represents that the Property, as of the Close Of Escrow, will be in compliance with Health and Safety Code §19211 by having the water heater(s) braced, anchored or strapped in place, in accordance with those requirements.
